Portfolio: altheorenecruz.github.io/ojt-portfolio

OBJECTIVE

Aspiring UI/UX and front-end web designer seeking a 500-hour OJT placement where I can apply my skills in interface design, basic programming, networking, and troubleshooting, while learning from an experienced team.

EDUCATION

Bulacan State University – College of Industrial Technology 2023 – 2027
Bachelor of Industrial Technology, major in Computer Technology · Expected graduation: 2027

STI College Malolos
Senior High School

SKILLS

- **Design:** UI/UX wireframing, Figma
- **Web:** HTML, CSS, JavaScript
- **Programming:** Java, Python (basic), C++ (basic)
- **Databases:** MySQL, MySQL Workbench
- **Technical:** Networking, computer hardware, software troubleshooting, Arduino, ESP32
- **AI tools:** Claude, ChatGPT, GitHub Copilot

PROJECTS

IPv4 Subnet Calculator HTML · CSS · JavaScript
Computes network and broadcast addresses, subnet mask, and usable host range from an IP and CIDR prefix, with a color-coded binary view.

CIT Computer Lab Reservation HTML · CSS Grid · JavaScript
Weekly lab booking interface with class schedules, double-booking prevention, and reservation cancellation.

Student Violation Website In progress
A website for recording student violations in our college (currently in development).

PERSONAL STRENGTHS

Fast learner · Teamwork · Discipline and focus · Accountable

OJT AVAILABILITY

500 training hours · 2nd Semester, A.Y. 2026–2027
